

GROWFORCE KS32

NUTRITION

NPK 0-0-27, 5.6S

Tech Sheet

Growforce KS32 is a combination of three forms of Potassium along with sulfur which is readily available, low salt index and chloride and nitrate free.

Features & Benefits

- Ideal high potassium source for both foliar and soil applications
- Helps to mitigate Potassium deficiencies
- Provides highly balanced Potassium and sulfur at 4:1 ratio
- Potassium optimizes water efficiency within plants, aids in photosynthesis and coloration of fruit
- Thiosulfate sulfur gets converted to active sulfate within the plant to help with oil and protein biosynthesis
- Physically compatible with most agricultural chemicals making it an ideal tank mix partner

Applications & Use Rate

Use Rate:

1-2 qt/acre

Applications:

Foliar or Soil Applied

Weight:

11.85 lb/gallon
