

# **GROWFORCE<sup>®</sup>** Zn/Mo Plus

NUTRITION

## Tech Sheet

Growforce Zn/Mo Plus is a Blend of Zinc, Molybdenum and liquid kelp extract. The kelp extract contains a high Auxin: Cytokinin ratio and a package of carbon and amino acids. Zinc converts tryptophane to auxin for continued growth and the molybdenum helps with nitrogen assimilation (converting nitrate to ammonium). Molybdenum also helps check ethylene build up in the plant.

### Features & Benefits

- Contains a high Auxin kelp extract that targets root growth
- Its formulation promotes root growth and provides key nutrients for nitrogen utilization and maintaining the enzyme and hormone hormonal balance
- Builds bigger roots
- Extends pollination period
- Helps turn on hormones needed to transport micronutrients like Zinc in the emergence process
- Can be used to initiate rapid regrowth

### Applications & Use Rate

Use Rate:  
12 oz/acre

Applications:  
Seed Treatment, In-Furrow & Foliar

#### Guaranteed Analysis:

Zn (EDTA).....	3.0%
Molybdenum (Mo).....	2.0%
Liquid Kelp Extract.....	26.0%
