

NANO MICRO

Tech Sheet

Nutriseed Nano Micro delivers the ideal amount of highly available nutrients plants use during germination to develop a robust and vigorous root system as well as consistent and enhanced stand establishment.

Features & Benefits

- Powered by NANOTECHNOLOGY
- Each nanoparticle is between 1-100 nanometer (nm) allowing for lower use rates
- Nanoparticles are taken in by both ENDOCYTOSIS and not just Diffusion alone
- Rate of 1-2oz/cwt
- Half the use rate with the same yield benefits as comparable products
- Safe to mix with fungicides, insecticides and PGRs or layer as overtreatment

Applications & Use Rate

Use Rate:
1-2 oz/cwt

Applications:
Seed Treatment

Guaranteed Analysis:

Copper (Cu).....	0.05%
Iron (Fe).....	2.0%
Manganese (Mn).....	1.0%
Zinc (Zn).....	1.0%
